

PROJECTED PROGRAM OF EVENTS/ACTIVITIES*.

*subject to change

Friday 19 June - 2 hours online session.

Monday 22 June - Conference on citizen science, plant biogeography and conservation biology and visit to the AMAP institute and experimental facilities.

Tuesday 23 June - Visit to the **botanical garden** of the University of Montpellier and guided visit to the **City of Montpellier**.

Wednesday 24 June - Conference on long-term climate change and population/species dynamics and visit to the ISEM institute and experimental facilities.

Thursday 25 June - Conference on ecology and evolution of Infectious diseases, and history of pandemic, and visit to the MIVEGEC institute and experimental facilities.

Friday 26 June - Stream train tour and visit of the Bambouseraie (botanical garden with bamboo and amazing trees and plants).

Saturday 27 June - free

Sunday 28 June - free

Monday 29 June - Conference on Pollinator collapse and fast adaptation in plants and visit to the CEFE facilities/Puéchabon Experimental Site.

Tuesday 30 June - Conference on marine and estuarine ecology, and visit to the IFREMER institute and experimental facilities.

Wednesday 1 July - cultural activity/visit

PROGRAM HIGHLIGHTS

COME AND DISCOVER lectures entirely taught in English, given by **professors** and **researchers** and **visit various laboratories** within the University of Montpellier. The courses are complemented by **social and cultural events**, as well as **field trips**.

Places are limited to 20 students.

Lectures by renowned experts who will share their knowledge and insights on evolutionary ecology and biology.

Laboratories visits: immerse yourself in experiments and technologies to enhance your academic and professional profile.

Field Trips to discover local ecosystems, visit the region of Montpellier and the cultural heritage of southern France.

Networking Opportunities by connecting with fellow students and professionals in the field and exchange experiences with peers about evolutionary ecology and biology. Build relationships that could pave the way for future collaborations.

Social events to foster a sense of community among participants.

Join Us for an Exciting BIP on Evolutive Ecology and Biology

For whom?

This selective, interdisciplinary program is open to **third year bachelor, master and PhD students**, with an undergraduate degree in ecology/evolution, geography, and related disciplines.

Applications are open until April 1st, 2026

3 ECTS

The BIP includes

- events
- laboratories visits
- guided visits
- breakfast and lunch

Not included

- flight/train and transfers
- dinner
- meals on free days
- accommodation (rooms in student residence available)

Visit our website

Do not book your flight/train ticket and accomodation before we have confirmed the BIP!
